

# Leading Dental Materials for 3D Printing

## Biocompatible and CE-certified

So what makes NextDent unique? It's the sheer choice you have in Dental 3D Printable materials, which are all biocompatible and CE-certified, making them suitable for a wide range of applications. Our products are classified in accordance with the medical device directive 93/42/EEC, making them suitable for local registrations as well. We offer material in a spectrum of colours, depending on the daily use and the references of our customer.

NextDent offers unlimited possibilities for lab managers, dental technicians, dental prosthetic technicians and clinical prosthetists/orthotists. NextDent's mission is to support you, as our client, in transforming your practice from a low-tech, traditional workplace to a high-tech dental 3D printing work environment. We are focusing on custom-made solutions. Let's team up to print the future of dental technology together!
